Tomboy Foam Profile
Rudder Only Control
30" span, 1.04 sqft
5.5 oz all up weight

TOMBOY
Original design by Vic Smeed 1950

Rhodium - 4 degrees

Cut out for servo after determining position for balance

Glue lower fin between fuselage halves after being sure the fuselage is perfectly straight

Bamboo skewers for wing and pod rubber bands over hang fuselage by 1/2" both sides

2 degree downthrust
2 degrees right thrust

20% cuts on dashed line, bed down and bend

50% cuts on dashed line, bed down and bend
